COMMISSION.

SOME VIEWS ENTERTAINED.

with a Number of Suggestions as to the Treatment of the "Problem."

Saggestions for the Future Treat-

ment of the Mormons. Washington, December 2.- The report of the Utah Commission is made public. It states that the duties imposed on the Commission at the recent election were successfully performed, and that all polygamists were excluded from roting, and continues as follows: After more than two years' labor and Jackson, D. D. exerience here, it becomes our duty to advise the government and the country that, although the law has been successfully administered in respect of the disfranchisement of polygamists; the effect financiasement of polygamists, the caterior of the same upon the preaching and practide of polygamy has not been of a character to improve the former or decrease the latter. During the present year, there have been a polygamic respears to have been a polygamic re-ival. The institution is boldly and defaulty defended and commended by the spiritual teachers, and plural mar-riages are reported to have increased in appears to have been a polygamic revival. The institution is boldly and defiantly defended and commended by the spiritual teachers, and plural marriages are reported to have increased in number." A considerable portion of the report is devoted to an account of the recent trial and conviction of Rudger (lawson, which the Commission think will have a restraining influence upon Clawson, which the Commission think will have a restraining influence upon young Mormons. "It is not unlikely," says the report, "that, finally, the Yederal government will find it necessary to take into its own hands all the civil power in this Territory. For the present, however, we advise only: First, that the offices of Territorial Auditor and Treasurer should be

in the guard by his first sergeant. By some mistake he did not "cap" it, and on returning to his quarters to change from his holiday attire to his every day dress, he soberly remarked that surely his time for orderly would come at his next guard mount, as the selected one was next to him and he came within one of it. He apparently forgot appointable, and all these, after nomination by the Governor, shall require to be confirmed by a majority vate of the Commissioned. The reason for this is obvious. The Organic Act now recommissioned. The reason for this is obvious. The Organic Act now requires that all nominations by the Governor shall be confirmed by the Legislative Council. The Council is al-ways a creature of Mormon power. Hence, no suitable appointments can be secured. The Governor and Commis-sion acting respectively as naminating sion, acting respectively as nominating and confirming powers, would insure such appointments as would be effective in the effort of the Federal government to overthrow polygamy. For the courts, after conferring with the judges and district attorney of this district, we recommend: First, that the provisions of the law of 1874, relative to juries and the mode of selection, be revised, either by providing for a greater number of jurors or by authorizing an open venire, when the names in the box have been exhausted. A better provision, perhaps, would be one authorizing an open venire in all cases prosecuted by the United States. Second, the jurisdiction of the several district courts ought to be extended, so as to give each jurisdiction in all cases of polygamy wherever in the Territory the crime may have been committed. Third, in United States cases the Territorial courts should be cases the Territorial courts should be invested with power co-extensive with that possessed by the United States circuit and district courts in the several States, in matters of contempt and punishment thereof. Fourth, that prosecutions for polygamy should be exempted from the operation of the general limitation laws; certainly while eral limitation laws; certainly while parties continue to live in polygamy the statute should not run against the principal crime, polygamy, Fifth: the statute should hot full against the principal crime, polygamy, Fifth: The process of subpenas in all cases prosecuted by the United States should run from the Territorial courts into any other district of the United States. Sixth: Provision should be made for binding over witnesses on the part of government in all United States cases, to appear and testify at trial.
Seventh: When a continuance is
granted upon the motion of defendant. provision should be made for the taking of depositions of witnesses on the part of government, with an opportunity given defendant to be confronted with the witness or witnesses making such deposition, and to cross-examine; such

Just before the train reached the herd, the sheep had piled up in fright directly the sheep had piled up in fright directly the sheep had piled up in fright directly on the track, and the spectacle, as the engine ploughed through the pyramid, was said to have been a horrifying one. Geo. C. Miln was a passenger on the Utah Central, and he expressed himself in the most unmeasured terms against the needless butchery. Two gentlemen who were also on the Central informed a Herallo reporter that the D. & R. G. HERALD reporter that the D. & R. G. Herald reporter that the D. & R. G. could easily have stopped before reaching the sheep. One said that the animals were thrown up over the smoke stack, tossed aside like feathers, heads severed by the wheels and whole bodies cut in two. The sight of the bloody remnants, and the sound of the bleating is described as having been fearful in the extreme, and the U. C. passengers were loud in their denunciation of the other train. Maxey, Harrison and others advocated the resolution, and the proceedings broadened into a general discussion of Indian lands and supplies.

Dawes said that these leases of Indian lands, while wrong, were no more outrageous than the authorized enclosure, by wire fences, of thousands of acres of public lands. If remedial action was not taken in time the public domain would pass irrecoverably into the possession of large land owners, foreign and native. He hoped the matter would not be allowed to end in talk or be confined to the Indian lands alone. The bill of the committee did not prohibit a discrimination in freight charges, but the substitute prohibited companies from charging more for a shorter than for a longer distance, for the same quantity of freight. The substitute gave complete legal and equitable remedies to the citizen for every injury, without delay, and through the courts of the country. The committee's bill failed to do this. Another great improvement in the substitute over the committee bill lay in the fact that, while the latter directed the 'committee to inquire into the method of pooling and to report what legislation was needed on the subject, the former absolutely prohibited such pooling.

They have had good crops, though their market has been limited this year. None of the go-ahead people complain. I visited the towns along the way, and Toquerville, Virgen City and Rockville. Up in this section the people have had numerous washouts, etc., but having a late fall their crops have been good, and I heard but very little of the cry of "hard times." Since my departure, I learned of a sad accident to a baby boy belonging to Mr. and Mrs. Hilton, of Virgen City. From what I could learn, the child was sitting near the fire and fell, burning itself very badly. They have the sympathy of all. Mrs. H. is the daughter of our fellow-townsman, Samuel S. Richards.

The large audience present was an indication of the great interest felt in the Sunday School movement. Commenting upon the present excellent organization of the Union, he yet realized it to be insufficient, when considering the great responsibility that rested upon the future of the rising generation. Faithfulness of parents would not directly benefit these children, as instance the enticing away of some young people from the faith of their fathers. The future of our youth should be placed secure.
